

STANFORD UNIVERSITY Research Consent Form

Protocol Director: *Vishakh Padmakumar*

Protocol Title: Scaling Qualitative Data Collection with AI Interviewer

IRB Use Only

Approval Date: December 18, 2025

Expiration Date: Does Not Expire

IRB# 84069

DESCRIPTION: You are invited to participate in a **research study** on understanding the impact of AI on typical workplace activities. You will be interviewed by an AI agent about your current workplace activities. The questions will be posed in a typical conversational manner and you can respond in text or by recording an audio response with your microphone. The audio itself you record will NOT be saved by us – we use a standard transcription service to only record in text. By agreeing to take part in the study, you consent to your microphone audio being recorded when you decide to respond in the audio format. No question should ask you any personally identifiable information, the questions will be tailored to ask about workplace activities of your profession. We ask that you be as specific as possible while maintaining confidentiality requirements of your employer. You always have the option to not respond to a question by just asking the AI agent to proceed to the next question, as you would in a typical conversation.

TIME INVOLVEMENT: Your participation will take approximately 1 hour.

RISKS AND BENEFITS: There is minimal risk associated with this study. Study data will be stored securely, in compliance with Stanford University standards, minimizing the risk of confidentiality breach. **We cannot and do not guarantee or promise that you will receive any benefits from this study.** Your decision whether or not to participate in this study will not affect your employment nor participation in future studies.

PAYMENTS: You will be paid based on the agreed-upon platform hourly rate as payment for your participation.

PARTICIPANT'S RIGHTS: If you have read this form and have decided to participate in this project, please understand your **participation is voluntary** and you have the **right to withdraw your consent or discontinue participation at any time without penalty or loss of benefits to which you are otherwise entitled. The alternative is not to participate.** You have the right to refuse to answer particular questions. The results of this research study may be presented at scientific or professional meetings or published in scientific journals. Your individual privacy will be maintained in all published and written data resulting from the study.
